OCTOBER - 2005

OCTOBER HAPPENINGS

Wed, Oct. 12th - 7 pm. - Photoshop Workshop

Sherry Johnson, Instructor – Reed's @ 888 Federal Blvd.

Bring your laptop if you have one and follow along. Sherry will pass out handouts covering all material in the workshop.

Wed., Oct. 26th - 7 p.m. - Competition Meeting

Entries due at 6:30 p.m. ASSIGNED SUBJECT: NATURE

DEFINITION FOR "NATURE"

"A Nature Photograph is a print or slide (from a single negative, slide, digital capture or electronic transfer) taken at a single moment in time that accurately depicts one or more natural subjects (including animals, fish, geological formations, insects, plants, etc.) as they appeared at that moment in time with sufficient detail that the identity of the subject(s) can be readily determined. If a man-made object is in the photograph, it must be incidental to or contribute to the nature story without drawing attention away from the subject of the photograph. Photographs of constrained animals (such as those found at game farms, animal rehabilitation centers and zoos), feral domesticated animals and cultivated flowers are permitted as subjects.

Scenics or landscapes where the type of plants or rock formations are NOT easily determined (such as silhouettes and layered ranges of mountains, hills, or trees), images where heavy filtration (other than polarizing or enhancing) is used to the extent that the accurate rendition of the original subject is lost, or where long exposures alter the perceived scene (such as: cotton candy water), are more properly pictorial subjects than nature subjects."
